In the Name of Allah, the Beneficent, the Merciful

Condemnation of the cruel Zionist Brutal Murders

We Palestinian Jews are participating in the grief and deep sorrow of the Dawabsha family, of the shocking murder in cold blood by Zionist murders their beloved baby Ali saad, may he rest in peace. We are sending our deep consolations in the name of the Jewish nation to the mourning family. We strongly condemn the cruel and shocking murder that was committed, a thing that is strongly against the Jewish religion, which is one of the Ten Commandments is: "thou shalt not kill". We wish a complete recovery to all the wounded in the family by the bloodthirsty Zionists.

Our heart is bleeding when we see the constant cruel suppression against our helpless and defenseless Palestinian brothers of the Zionist imperialism.

We demand of the U.N. and all of the human rights organizations to send to Palestine international forces that will protect the lives of our Palestinian brothers from the Zionist indiscriminate attacks and vandalism.

The blood of our Palestinian brothers is screaming to us from the ground!!!

It is high time for the Palestinian leaders to invest the greatest efforts in the Zionists’ genocidal crimes! Bring their perpetrators, political leaders and military personnel alike, to the International Criminal Court in The Hague.

We announce world-wide that the Zionists are not a part of the Jewish nation and the name "Israel" is a terrible forgery. We pray to Allah that the Zionist entity should disappear from the map. The sovereignty should return to the Palestinian regime on all of Palestine, with Al-Quds as its capital city.

In this opportunity we are sending our deep condolences to all of the Palestinian families who have lost family members by the Zionist murders in the last few weeks. We are praying to Allah for the complete healing of all the wounded by the Zionist cruel forces.

We hope for the day when we will be able to live in peace with our Palestinian brothers, the way we lived in Palestine before the Zionist occupation. May the Allah reveal His glory throughout the world, and bring about a time when all humanity will serve Him in harmony and joy. INSHALLAH.

Signed in pain and anger,
